### SHORT PROJECT OVERVIEW

Implementation of FFS | Agricultural extension Services | Water and economic productivity and climate-resilience in irrigated agriculture

### TASKS

- ▶ Overall responsibility for the advisory packages, achieving the assignment objective
- ▶ Ensuring the coherence and smooth implementation of the services, maintaining good communication at central and local level with the local partners and beneficiaries, in close coordination with the Client
- ▶ Coordination of the activities included in the time plan in coordination with the Client and MALR. 17
- ▶ Management of team personnel and monitoring performance of Key Experts, Short-term Expert Pool consultants and Field Coordinators.
- ▶ Coordinate the role of FFSs facilitators at local level and other extension officers, along with the Field Coordinators.
- ▶ Support the nomination of FFS locations, in coordination with the Field Coordinators and MALR.
- ▶ Close monitoring of the implementation of FFS and overall activity progress according to the agreed time plan.
- ▶ Develop narrative text for the 3 success video stories.

- ▶ Supervise the technical quality of deliverables and knowledge products
- ▶ Responsible for the design, technical content and implementation of the two knowledge management workshops.
- ▶ Managing changes and adaptation of the team to changing conditions
- ▶ Guide and follow up reporting and deliverables development in accordance with deadlines and quality in Arabic and English as requested.
- ▶ Regular communication with Client responsible officers, for updates and adapting corrective measures if needed, including the exchange and handover of any material under this Project

## QUALIFICATIONS

- ▶ Education/training: Advanced university degree (Master) in agriculture sciences, agriculture economics, agronomist or extension, among other related fields.
- ▶ Language: C1-level language proficiency in English, in speaking, listening and writing skills.
- ▶ General professional experience: 15 years of professional experience in the agriculture sector.
- ▶ Specific professional experience: 10 years in implementation of projects with development cooperation partners regarding capacity development, leading assignments for supporting farmers, agriculture extension, rural development, field crops management, developing the capacities of small-scale farmers and agriculture institutions at different levels.
- ▶ Leadership/management experience: 5 years of management/leadership experience as project team leader with formal and direct disciplinary responsibility over a team of technical experts or manager in a company. The mere coordination of technical input/work of consultants will not qualify as leadership/management experience.

- ▶ Development Cooperation Experience: 5 years of experience in international development cooperation projects in the agriculture sector in Egypt.
- ▶ Other: Excellent digital literacy to use MS Office, MS Teams and Outlook.
