Assignment Title: “Climate Change National Adaptation Plan (NAP) Development in Egypt”

SECTOR/ Key Words: Climate Change Adaptation; National Adaptation Planning (NAP); Strategic Planning; Public Policy; Economic Development; Climate Governance; Policy Integration; Public Financial Management; Institutional Coordination; Stakeholder Engagement.

Project Overview

1) General objective

The overall objective of this assignment is to support the Government of Egypt in the development of a Climate Change National Adaptation Plan (NAP), through comprehensive economic, social, and climate risk analysis, and to ensure its integration into national policy and budgeting frameworks.

2) Specific objectives

- To support the development of a coherent and evidence-based national adaptation framework aligned with Egypt’s development priorities
- To ensure effective coordination and integration of adaptation measures across multiple governmental entities
- To facilitate the alignment of climate adaptation planning with national budgeting and planning cycles

Scope of the Assignment

The Senior Strategic Planning Expert will play a key role in supporting the design, integration, and coordination of the NAP, ensuring alignment with national frameworks and institutional processes.

The expert will contribute to:

- Strategic planning and structuring of the NAP document
- Integration of sectoral adaptation plans into a unified national framework
- Alignment of adaptation measures with national policies and public investment processes
- Coordination among governmental stakeholders and institutions
- Support to stakeholder engagement and consultation processes
- Contribution to capacity-building activities related to strategic planning and policy integration

Assigned Tasks

The Senior Strategic Planning Expert will be responsible for:

- Supporting the development and structuring of the National Adaptation Plan (NAP) in line with international standards (UNFCCC) and national priorities
- Coordinating and integrating inputs from multiple sectors and governmental entities into a cohesive strategic framework

- Ensuring alignment of adaptation strategies with national planning and budgeting processes and cycles
- Supporting the development of policy recommendations and implementation roadmaps
- Facilitating coordination with key ministries and public institutions
- Supporting and participating in stakeholder consultations and validation workshops
- Contributing to the design and delivery of capacity-building activities related to strategic planning and governance
- Reviewing and contributing to project deliverables to ensure consistency, quality, and strategic coherence

Expert Minimum Requirements

- Nationality: Egyptian (mandatory)
- At least 15 years of proven experience in strategic planning, policy frameworks, and project management
- Advanced university degree in Strategic Planning, Environmental Economics and Policy, Political Science, or a related field (PhD is an asset)
- At least 7 years of experience in integrating and coordinating plans across multiple governmental entities
- At least 7 years of experience in programme/project management
- Proven experience and strong familiarity with Egyptian national planning and budgeting processes and cycles
- Demonstrated experience working with international development agencies
- Proven experience in stakeholder engagement and facilitation of multi-stakeholder processes
- Experience in strategic management and institutional capacity building

Key Skills and Experience:

- Strong analytical and strategic thinking skills
- Excellent coordination and stakeholder engagement abilities
- Strong communication and facilitation skills
- Ability to work in multidisciplinary teams
- High level of organization and attention to detail
- Client-oriented and results-driven approach.

Languages

- Fluent in English and Arabic (mandatory)

Reporting & Coordination

The expert will report to the Team Leader and work closely with the multidisciplinary team, including economists, sociologists, and technical experts, ensuring integration across all components of the assignment.

Duration

To be defined based on project requirements (estimated multi-month assignment aligned with project timeline).
